

## The Future of Ceilings: Smart, Stylish, and Seamless!

Have you ever imagined combining **air ventilation** with **ceiling accessories**?

The **C2020 Smart Edition** is a ceiling solution, designed for **customization, high performance, and seamless integration**. This brand is built with **sustainable materials** and offers **low ventilation noise levels** and **no visible joints**, ensuring a clean and modern aesthetic.

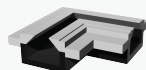

With the C2020 Smart Edition, you can effortlessly integrate **speakers, disco balls, LED panels, spotlights**, and even smart technology like Alexa into the **C2020 Dummy and C2020 Corner Accessories**—all while maintaining a stylish, clutter-free ceiling.

Thanks to **magnetic tracks** (available separately from any **lighting** supplier or distributor), attachments are **quick, secure, and fully customizable** to fit your space.

- ✓ Customization
- ✓ High Performance
- ✓ Frameless Integration
- ✓ Sustainability
- ✓ Low Noise
